Den 2 december

Coaching Plain and Simple

en heldags workshop med **Peter Szabo, SolutionSurfers.**

Dagen kommer att passa såväl dig som är ny inom lösningfokus som du som redan använder arbetssättet.

Utdrag ur innehållet:

- att med klienten samkonstruera en så detaljrik önskvärd framtid så att klienten automatiskt tar steg framåt.
- att hålla det enkelt och effektivt genom att använda skalfrågor då saker och ting verkar komplicerade
- öka dina valmöjligheter i alla dina dagliga samtal

“Throughout the day you will have many opportunities to work on your own burning issues, to practice and experience the benefits of solution-focused conversations and to reinforce each other in the array of competencies and talents in your team”.
